Tick to be excluded from receiving information about future Steamups

# 2018 GSSU REGISTRATION INFORMATION

## Please Note that:

- \*There are no concessional rates for non runners or juniors.
- \*Communication to participants is by email only. You do need to quote an accurate email address on your Registration form.

## Who are the Victorian Garden Railway Society Inc.?

The Victorian Garden Railway Society is an Incorporated not for profit association made up of the same individuals who have been putting on the GSSU over the past decade.

## Remember at the GSSU, you are not in a garden but in an enclosed still air space. Operations do require more attention. In particular:

- \*Please ensure your locomotives are in good running condition with safety valves working correctly and no gas or metho fuel leaks. **The GSSU is not a place for test runs or try outs. Do these before you come.**
- \*All fluid spills, meths, oil and water, **MUST BE CLEANED UP IMMEDIATEIY**  
If it's your spill, it is your responsibility
- \*Do not 'gas-up' any locomotive on or near the running tracks as the invisible gas overflow pools and is easily ignited by other locomotives in steam nearby.  
Fill gas tanks preferably outside or well away from any other flame source.
- \*Do not block access around the track or access to any exit with boxes or other obstacles
- \*Coal fired engines can cause severe respiratory problems running inside ( we aren't getting any younger ) so please do not run more than one coal fired loco at a time and ensure air quality in the hall is clear before lighting up and that doors and windows open for ventilation. Swapping your coal loco to a suitable running time is easier than calling an Ambulance to a gasping fellow steamer.

## Any other Questions?

Please see our website at [www.greatsouthernsteamup.com](http://www.greatsouthernsteamup.com)  
or email our GSSU Registrar Peter Watson at [trapia@bigpond.net.au](mailto:trapia@bigpond.net.au)
